

Eck Plastics wins Lockheed Martin award

May 16, 2011

PLASTICS NEWS REPORT

BINGHAMTON, N.Y. (May 16, 1:15 p.m. ET) -- Eck Plastics Arts Inc., a manufacturer of tight-tolerance plastic and aluminum parts and assemblies, has won a Star Supplier Award from Lockheed Martin.

The award from Moorestown, N.J., based Lockheed Martin is presented to suppliers that meet rigorous performance criteria including maintaining a 98 percent or above rating in quality, delivery, and all other aspects of performance. Star Suppliers are also provided visibility across all of Lockheed Martin's procurement centers.

Eck Plastic Arts has been in business in the upstate New York area for more than 50 years. Its processes include vacuum forming, machining, injection and insert molding, high-speed CNC routing, pad printing, and ultrasonic and flameless welding.
